

Submitter: Angela Reed

On Behalf Of: Albertinakerr

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

I support the bill as I have been a staff DSP for 15 years and it would be nice to see our hard work being increased as some of us have to work 65-70 hours a weeks just to support our own families the cost of living is not enough and it sucks that money is a factor in life , but it is and that is why the people we serve are having such a huge turn around in programs.
