Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

Dear Legislative Members,

Thank you for taking the time to read through this testimony. As a mental health provider and member of the LGBTQIA+ communities, I would like to submit my support for a complete ban of conversion therapy. As a provider that primarily specializes in mental health care for LGBTQIA+ individuals, families, and couples, I have seen first hand the deep, lasting damage that this practice can and has caused in our community. Please make the life affirming choice and support a ban of this cruel practice.

Thank you.
