

Submitter: Nancy Grob

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB509

Most of us are aware that we need to do our part concerning defensible space and home hardening. We are currently working on it to the best of our abilities.

My concerns are:

- There is a lack of Federal /State/County management of the Forest in my community.
- Why do I as a homeowner have to take extreme action and then be punished if I am not able to.
- Many will be forced to sell their home because they are unable to fully comply either due to their financial and/or health situation.
- I would like to see education and incentives for our community not punishment using unaffordable insurance and fines/escalating fees.
