On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

An Essential Rebate

We need to act now to prevent further climate chaos. The quickest way is to create incentives to get us out of our cars that run on fossil fuels. Not everyone can afford a Tesla or other electric vehicle, but E-bikes are an affordable option and have the potential to transform the way we get around! It's like riding on a cloud, and you get exercise as well, since you have to pedal.
