

Submitter: Haven Henry

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB2510

Hello,

My name is Haven and I support bill HB 2510.

I have shown horses for years in many of the fairgrounds and facilities in Oregon through 4-H, OHSET, and countless different horse shows. Funding would greatly help all the events put on by the fairgrounds. All the fairs and livestock events, even the sit down meet ups and seminars.

All these events are becoming less and less prevalent due to lack of outreach and costs. With more funding there could be more information and marketing out for the community to be aware of all the events that are put on, as well as more points of interest to draw in a more diverse community.

Having funding would help to fix up many parts that are in lack luster as well improving the participation as well as the visitors. Strengthening the community as well as widening the knowledge and participation of everyone!
