

Submitter: Calista Songstad

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB417

I support this bill. Public records are out of reach for the public, because of unnecessary and unknown costs. I have been quoted up to \$5,000.00 to get copies of emails from a local school board that had no private information or information related to a named child to require redacting in the past. People often feel blocked by the quote and unable to move forward whether that is the intention or not.

Please Schedule SB417 for a work session and allow the public and agencies to have transparent and affordable public records transactions.
