

Submitter: Jim Donohue  
On Behalf Of:  
Committee: House Committee On Revenue  
Measure: HB2433

Small Business in small towns has always been difficult with its seasonality. Surviving COVID was a whole new obstacle and we lost a lot of businesses, with COVID the cost of goods as well as labor has skyrocketed. Raising prices to offset the increase of doing business is creating fewer customers so we operate on very thin margins to just try and keep our employees employed. This exemption may be just what is needed to offset costs enough to keep the doors open.

Thank you!

Jim
