Committee: House Committee On Economic Development and Small Business

Measure: HB2510

Throughout the years my 3 children have participated in 4H, OHSET, and FFA. Without the facilities at the fairgrounds these important social events couldn't take place. The ability to have your animals in a safe space at fair. Riding in the indoor arena all winter and outside during summer are essential resources for our youth. This enables children and adults from all economical backgrounds the opportunity to have a safe space to be together. We have attended many horse shows, the fair each year, rodeo, horse races and local events made possible by the facilities we have locally. I support providing them the funding they need to continue improving the existing spaces we are allowed to play in.
