On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB2510

I support this bill as the county fairgrounds are a very much needed community feature. My 4H club, FFA, riding club (Valley View Riders), OHSET and individuals heavily use the arena and grounds. Many are in disrepair and some the asthma footing is so bad it's dangerous for the horses due to concussion, musculoskeletal issues (too deep footing, too hard, uneven) and can be dangerous for riders as well, particularly with certain riding disciplines such as drill teams, gaming and jumping.
