

Submitter: Marie Hansen

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

Please vote yes on house bill 2457 as direct support professionals take care of some of the people needing care the most and go through training to prepare for so many situations and without which lives would be effected. Expecting them to do do for no more pay then fast food workers who sometimes get tips. Not many of theses hard working support professionals often get full time hour thus even less pay. Support them as well as the families and clients they serve by supporting this bill.
