Measure: SB576

On behalf of Josiah Morrow,

I am a victim of violence and have a spinal Cord Injury for nearly 10year. I live as a paraplegic as a full time wheelchair user. I would like to go back to work. But the restrictions on income and my resources limit what I could do! This is very hard on my mental state as I have a lot to offer my community. Please consider passing SD576 it would enrich my life and many others in my community.

Thank you for you compassion.
