

Submitter: Julie Shine
On Behalf Of: Project Never Again
Committee: Senate Committee On Human Services
Measure: SB548

The children in foster care deserve to be treated with dignity and respect. I can only imagine that moving around with what little belongings they have in a garbage bag would make them feel less than, like they don't matter. This bill would be a huge stepping stone in helping our foster children feel like they have a place in this world.
