

Submitter: Kevin Ryan

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

Please take a good look at this as the people we support need more from all of us and when we have such a high turnover rate it directly affects them in that they are constantly having the people they know and trust to help support them leaving and having to get used to yet another new person, this must be hard on them. I truly believe that if we made an actual livable wage that would help us as direct support staff in that we can breath a little easier and leave us in a position that we can be more present for those supported and don't they deserve that don't they deserve the best we can give them.

Thank you for your time and consideration.
