

Submitter: Donna Jones
On Behalf Of: Project Never Again
Committee: Senate Committee On Human Services
Measure: SB548

I support this cause 100%. No child should have to use a garbage bag to carry their belongings from one home to another, It is bad enough they are in the foster care system, they should not have to endure the embarrassment and additional mental anguish this causes them. I highly support this cause. Lets help these kiddos out the best we can and provide support in how they move from one home to the next. Thank you!
