

Submitter: Milton Johnson

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB199

I do not support SB199. Oregon law already appears to let the SFWC set rules and regulations for the taking of wildlife, this bill seems to simply allow the SFWC to make rules about the taking of predatory wildlife rather than the State Department of Agriculture. Due to the potential economic impact of predators on Oregon agriculture, rule making authority about the taking of predatory and pest animals should remain with Agriculture.
