

Submitter: Richard Boyles

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB2433

I support repeal of the Commercial Activity Tax. The structure of this sales tax is highly problematic and creates a number of inequities in how competing business are treated, one being subject to the tax while a competitor is not. As repeal is not currently on the legislative agenda, I support HB 2433 which proposes to increase the minimum threshold for the Commercial Activity Tax to \$5,000,000. This will reduce the inequities inherent in the structure by reducing the number of small businesses subject to the tax.
