Measure: HB2999

Please pass legislation that will protect wildlife & decrease accidents along Highway 20.

I was a passenger in a car heading to Sisters from Salem, OR at dusk last year and we almost hit a dead deer in the middle of the highway a few miles west of Sisters. Clearly some other poor driver had already hit the deer but there hadn't been time to remove it so it was still creating a hazard.

Since that's a heavily used highway it's important to put in some wildlife over or under passes to improve safety for all.

Thank-you, Kathy Miller
