On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

It's time for universal healthcare to become a reality. It's the only ethical choice in a progressive society and in a progressive state. We need to relieve the pressure on Oregonians wrought by the pandemic and its associated struggles due to the economic downturn. The impact is felt most acutely by those with little extra resource when a health crisis hits— the same group shown in studies over and over to suffer the worst health outcomes due to economic struggle. One way we can do that is by ensuring that we all have access to the healthcare we need and deserve as human beings. I fully support this plan.
