

Submitter: Julay Brooks

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

To be working class in this country is to live life without safety nets. I don't even know what it's like to go through a day without the awareness that an illness or accident could ruin me. I deserve better and so does everyone who doesn't have the means to buy their way out of that anxiety.

To have universal health care--guaranteed, as a human right, without means testing or ten thousand administrative hoops to jump through--would help set this right for not only me but all the working class and poor people in this state. This bill is a important step toward that. Please pass it.
