

Submitter: Sue Craig

On Behalf Of: Interfaith Earthkeepers Eugene Springfield

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HB3019

It is of upmost importance, that this bill go forward. The public has, in the past, often been given erroneous information from this group. They have also received funds from governmental organizations at tax payers expense. It is therefore necessary that the tax payer, and a wider base of oversight (to include the environmental community) be put in place to regulate correct information that is given the public. As a faith group .....of many faiths....we wish to help our earth, and help protect it's bounty to our world. Thanks you for your consideration.
