Climate, Energy, and Environment Committee  
Oregon State Capitol 900 Court St. NE, H-492  
Salem, Oregon 97301

Subject: House Bill 2571, Electric Bicycle Incentive Program

Dear Members of the Climate, Energy, and Environment Committee,

Ahead of your February 8th hearing The Street Trust put out a call to our constituents in support of HB2571 and received over 300 signatures in support of this bill.

The Street Trust sees electric bicycles as the future of personal mobility and recreation thanks to their environmental benefits and their inclusive nature. Electric bicycles have made significant progress in the last ten years. With advancements in battery technology, motor design, and cargo-carrying capacity, electric bicycles are now a viable full-time transportation option for many Americans.

Initial demand for our BIKETOWN for all Ambassador program, which gave people free access to shared e-bikes, was overwhelming: people living on low incomes in our region are excited about the freedom e-bikes offer, allowing people to get where they need to go on time while relieving themselves of the financial burdens associated with personal car ownership.

We are firm believers that electric bicycles are a critical tool for achieving our state's climate, environmental, health, and transportation objectives. Instead of spending BILLIONS on widening freeways for more cars, we can relieve congestion and get people moving by getting them on e-bikes ASAP.

**Oregonians need a rebate program now to get our working families moving on e-bikes and cargo e-bikes with the equipment they need, including bicycle helmets, safety vests, and bicycle lights and locks.**

Signed,

André Lightsey-Walker

Planning and Programs Manager, The Street Trust
