

Submitter: Quintin Cooper

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

We in the State of Oregon in caregiving setting do more then a CNA 1 does. (This is due to DSP being able to administer medications, do outing etcs and are usually required to fill multiple roles). We are chefs, house cleaners and that is something CNA's are not also. People constantly leave due do to higher finding paying jobs that do less work then what we do.
