

Submitter: Aziz Secl  
On Behalf Of:  
Committee: Senate Committee On Health Care  
Measure: SB584

The Honorable Rev. Dr. Deb Patterson  
Chair, Oregon State Senate Committee on Health Care

The Honorable Cedric Hayden  
Vice Chair, Oregon State Senate Committee on Health Care

Dear Senator Patterson and Senator Hayden,

My name is Aziz, I write to oppose Oregon Senate Bill 584. This bill would require the Oregon Health Authority (OHA) to develop a web-based platform to support the scheduling and payment of interpreters for language access for Oregonian health care patients, essentially replacing many of the language service providers (LSPs) that currently service Oregon patients, and employ interpreters.

I oppose this bill because replacing LSPs would unintentionally result in the loss of the following benefits for many interpreters:

- Loss of Education and Career Advancement – LSPs typically provide high-quality training and educational resources that are foundational in advancing interpreter careers and expertise, at no cost or at a drastically reduced cost to the interpreter.
- Loss of Consistency of Income – Instead of being able to interpret for several LSPs, interpreters will be dependent on one client (the OHA) to provide all my assignments in Oregon. As a result, it would also seem that they would be dependent on OHA to set my compensation rates, though the bill's current language does not account for this.
- Loss of ability to work remotely – The current bill does not appear to support remote interpretation in any form. Remote work provides the kind of flexibility that allows some interpreters to work when they would otherwise be could not.

The intent of this bill appears to be the improvement of working conditions for Oregon-based medical interpreters. As it is written, bill 584 only supports interpreters who happen to do contract-based, on-site work exclusively. The bill actively impedes all medical interpreters.

As such, bill 584 fails to fulfill it's purpose, and merits the opposition of all those who fight for health equity, language access, and better working conditions for all medical

interpreters in Oregon.

Sincerely,  
Aziz Seck.
