

Submitter: Sarah Hinton

On Behalf Of: Fir Grove Elementary 5th Grade Leaders Green Team

Committee: Senate Committee On Energy and Environment

Measure: SB543

The 5th Grade Leadership Green Team at Fir Geove Elementary believe it is important to stop the use of these products if we as a society value the future of our planet. There are plenty of alternatives to polystyrene, so we believe this will be an easy switch to make. We hope that the right decision is made so that we can live in a bright, healthy world as we grow up.

Thank you!

Fir Grove Green Team
