Re: SB 754 Recreational Liability Reform

Chair Prozanski and Members of the Committee:

I strongly urge you to support SB 754 to reform the ability of out door recreation to rely upon waivers to protect them from lawsuits due to the innate dangers of participating in outdoor sports and activities in Oregon. Not passing this legislation will severely reduce the number and types of recreation that Oregonians will be able to participate in. This is not the type of state that I want to live in because Oregon has so much to offer the outdoor enthusiast.

Sincerely,
Mark Shafer
Board member for the Oregon Timber Trail
