

Submitter: Annette Vaughan

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB199

As a property owner in Clackamas County, I am opposed to allowing the ODFW authority to make decisions regarding predatory animals on personal property. Adding regulations and restrictions could be dangerous and even life threatening for both adults and children working and/or playing on their own property. Predatory animals present a very real danger at times. If property owners are forced to jump through hoops to protect their property, livelihood, and family members I fear that ODFW will be the cause of loss of life, injury, and destruction of the livelihood of homeowners. Please do not allow this bold and dangerous interference.
