

Submitter: Kayla Neal

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3223

As dental assistants have worked hard, and spent thousands of dollars and hours preparing for these crucial exams, to be CDA AND EFDA certified, this bill will drive the dental assistants to get less pay if the bill passes. As for the work we do, I feel we are already underpaid. With that being said, there will be another significant drop in dental assistants if this bill passes.
