

THIS BILL IS ABSOLUTELY NECESSARY! Motor voter does not follow the US laws of needing to be a citizen to vote.

There is no reason to automatically register people to vote, especially illegal immigrants and children. If someone wants to register to vote they need to go through the process to register to vote, which includes providing PROOF OF CITIZENSHIP.

In 2014 66% of Oregonians voted AGAINST measure 88 which blocked illegals from getting driver licenses. Then in 2019 the Oregon Legislature passed HB 2015 making it legal for illegal immigrants to get driver licenses without proving a legal presence - completely GOING AGAINST THE WILL OF THE OREGON VOTERS!

Since 2019, non-US Citizens have been able get licenses and are automatically registered vote. Did you hear that? Non-US citizens are voting in the US! .

Also, 16-year-old children are automatically being registered to vote when they get permits at the DMV. There is NO reason to register anyone under the age of 18.
