

Submitter: Mark Cosby

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3158

House committee

Legislation like this will directly impact low income employees and also drive up cost of foods on those who can least afford it.

Some businesses make 400% profits on products... but I don't think those are Natural Resource jobs with high equipment costs.

Loggers clean private lands and other timber sales lowering carbon emissions from wildfires (bless them in the efforts).

Gov. Kotek wants 36,000 new housing starts in Oregon a year...

With interest rates high and inflation higher.... the cost of housing will drive more people out of the market and most assuredly give us more homeless, and refugees fleeing Oregon for a lower cost of living :(

I don't see the reason, nor do I see compassion in passing sales taxes on a State's citizenry that pays so much already.

Kill the Bill !
