

Submitter: Sally Klein

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB199

Members of the Committee,

No to SB 199. Farming and ranching is difficult enough today without adding more rules and regulations to its burden. Let those on the ground, living the situation have control of their livelihoods.

Oregon government does not need to find reason to grow, quite the opposite in fact. Given the level of risk the state is placing itself in already as it relates to food shortage, rising costs of staples, inflation, and economic risk, I strongly urge you to vote in favor of those still willing to make farming and ranching a living. We need them.

NO to SB 199
