

Submitter: Konstantina Khoury

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I oppose this bill AS WRITTEN. It would make it near impossible for licensed therapists to question patients' complex issues around gender and sexuality. The job of a therapist IS to question and help patients understand their emotions, feelings etc. Although I agree conversion therapy is horrible, this bill restricts a therapists ability to do their job and DEMANDS affirmation without question.
