

Submitter: Janet Siminoe

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3223

As a Dental Assisting National Board Certified Dental Assistant for the past 30 years, as well as having taught Dental Assisting and Radiology courses for 8 of those years at Klamath Community College, I have seen first hand the impact that the lack of training and holding individuals to a higher standard of education and professionalism can cause. As a dental professional I find it extremely alarming that HB3223 would even be considered. As a dental assistant that loves my Profession I implore you to vote NO on this measure. Thank You Janet Siminoe CDA EFDA
