

Submitter: Charlotte Maloney

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

I am a retired occupational therapist. I support SB 704 because since 1999 I have studied methods in many countries providing medical care to all residents (especially preventative care, which our system doesn't address much). I have seen so many people not receive the care they need in my 38 years in the medical area. And, I now understand the only way to achieve this is to establish a system described in the Joint Task Force for Universal Health Care Report to this legislative session.

Since this is so unlikely to be addressed at the federal level for some time, we must act to implement Measure 111 for Oregonians. The task force shows us a way forward. Please move this bill forward.

Sincerely,  
Charlotte Maloney
