

Submitter: Michelle Johnson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2994

As a parent, it's important to me that families should not have to worry about the cost of their equipment and services while trying to get their child the essential care and equipment they need. The focus should be on the child and their hearing journey, which can be enough of a transition and learning experience for parents. Let alone having to learn and master navigating complicated insurance claims and call centers.
