

Submitter: Charise Monte

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

This transgender craze is totally out of control. Young girls are the victims and the state of Oregon is doing the victimization. This has to stop. With cognitive behavioral therapy these girls can come to realize that there's nothing wrong with them, they are just in the middle of puberty AND puberty is hard these days.

I oppose this bill.
