

Submitter: Jarkko Cain  
On Behalf Of: Holocene  
Committee: Senate Committee On Health Care  
Measure: SB704

As the owner of a business that employees 25 people in central Portland, may I say: we need a plan for health coverage for everyone. Our industry (music) pays poorly, and operates on thin margins. No lone business can take it on themselves to pay for health coverage for every sound tech, busser, door person...and then expect (only) their customers to accept the ticket and food and drink prices this would require. The only way we can make this work is all-together. We're excited to pay our fair share of this plan when we move forward jointly to make it happen. Thanks for reading!
