

Submitter: Richard Oberc

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2215

I am interested to know what provisions have been made for nuclear waste disposal if any.

Placing nuclear power plants in local communities is a decision that requires the involvement of local residents and not a decision that can be rushed through by legislative action.

An investigation needs to be done to uncover possible conflict of interest involving business and government.

The rush to approve is an insult to taxpayers and gives grounds for suspicion as to the motives involved.

No, we do not just trust you to do the right thing in this case. Inform the people and earn our trust.
