

Submitter: Lorene Nowling  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB2585

Please support HB 2585 which eliminates automatic voter registration through Oregon motor voter and reestablishes registration practices prior to the automatic motor voter registration. Automatic motor voter registration leads to inaccurate voter rolls and allows a system with less chance of fraud. Very few states have automatic motor voter procedures because it is not fair to the legal citizens of Oregon. HB2585 is fair to all legal citizens who must bear the burden of any tax increases that denial of this bill may cause.

PLEASE SUPPORT HOUSE BILL 2585!  
Lorene Nowling, Native Oregonian
