

Submitter: Andrew Damitio

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2215

I urge the House Committee on Climate, Energy, and Environment to advance this bill.

There might be concerted activist opposition to nuclear power, but public opinion polls show broad bipartisan support for nuclear power, which is a safe, baseload source of cheap carbon free electricity.

Oregon's climate targets and industrial competitiveness depend upon cheap carbon free power. I urge you to remove Oregon's de-facto ban on nuclear power.
