Measure: HB2994

Learning their child has hearing loss can be hard for many parents. They need time to process the information. They shouldn't have to figure out how they are going to have to pay for hearing aids. They shouldn't have to figure out which bills get paid and which don't, just give their child an opportunity to hear. Having easy access to appropriate amplification will dramatically change educational out comes. Please, let's help our children and their families.
