

Submitter: Eva Eagle

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB38

I strongly oppose SB38, which imposes an unreasonable and unrealistic schedule upon the agencies named.

Permit applications cannot always be processed in a 60 day period, as they often involve complex issues that require study. In addition, agencies can be overwhelmed with the sheer number of applications, which means that some will not be heard quickly. This bill would green light far too many applications. Basically, it is putting a thumb on the scales of the application process.

Please put this ill-considered bill aside.

Thank you,  
Eva Eagle
