

Submitter: S Evelyn Wallace
On Behalf Of: Union County Health Care for All Oregonians
Committee: Senate Committee On Health Care
Measure: SB704

Health care is a human right, and should not be an avenue for billionaire corporate owners of insurance companies to profit off the necessary bodily needs of Oregonians (nor any other human). Health Care for All is an important step in the right direction, and that step starts with developing a governance board to create a comprehensive plan for implementing a functional, robust Universal Health Plan. Please support SB 704 if you want to protect the rights of all Oregonians--regardless of income, age, or other variables--for a brighter future for ALL of us. Because one person's thriving does not have to come at the expense of another's: when we all thrive, we all thrive. Thank you. -S. Evelyn Wallace
