

Submitter: Christopher Shaker

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB812

Not sure why a State thinks that it should attempt to regulate airspace. That is the purview of the FAA. I'm not sure why our state would want to ban flying light RC airplanes. They are also considered to be UAVs.

It feels like our government despises tax payers. You seem to want to take all of our hobbies away from us, while bending over backwards to make allowances for the homeless, drug addicts, undocumented immigrants, etc.
