

Submitter: Jenny Richardson
On Behalf Of:
Committee: House Committee On Education
Measure: HB3101

To Whom It May Concern:

As a mother of two and community leader, school safety is extremely important to me. I'm writing today in support of HB3101. The correct and prompt response to school emergencies can save lives, and the app-based silent alarm outlined in this bill is a necessary tool for our classrooms. As we tragically learn, in tragedy after tragedy, the systems we currently have in place are not sufficient. This thoroughly researched, cost-effective solution will standardize a more efficient, silent response to emergency situations that will most certainly save lives. It's the least we can do for our kids and school staff.

Warmly,
Jenny Richardson
