Re: "No" on SB 42

Please do not move SB 42 out of committee.

I worked at DHS for over 25 years and worked on and chaired several administrative rule advisory committees. This bill creates activities which would be redundant and thus be a waste of time and tax dollars.

This bill is a wolf in sheep's clothing. It basically overrules all the work done by the relevant agency's rule making advisory committee. Even worse, actions taken under this bill could alter legislative intent.

Please vote "No" on this bill.

Thank you for your consideration.
