

Submitter: Catherine Bradley

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I am writing to provide written testimony in support for HB 2458, which seeks to prohibit conversion therapy in Oregon. Although I write from Washington State, I was called to submit testimony by a co-worker who lives in Oregon. As an educator, most of the student body I work with remotely are from Oregon. Conversion therapy intentionally uses practices that result in physical and psychological harm for its victims. It should be banned in all settings - including religious ones.
