I support HB 2585!

I have spoken to many people who have had their party affiliation changed without their consent or knowledge after having had interactions with DMV. This is somehow related to the automatic voter registration activities of DMV and needs to be STOPPED! This bill is a step in the right direction.

If an amendment could be made to create some kind of penalty or punishment for someone at DMV caught changing someone's affiliation without their approval, I would add that to this bill.

In addition I would add that voting is such an important part of participating in society, that registration should be a totally separate function from obtaining a driver's license, or any other function of government. In an attempt to make it "easy," government has degraded the importance of it.
