

Submitter: Krispin Mayfield

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

As a therapist who has seen the significant trauma and harm done by reparative/conversion therapy, I support the passage of HB 2458. I have seen evidence of this harm through the work I've done with clients. I have also seen the evidence of trauma by the stories of many people in my faith community that have undergone this type of therapy and been harmed by it.
