Committee: House Committee On Rules
Measure: HB2107

Dear Committee Members,

I oppose HB 2107. Nobody should be automatically registered to vote in Oregon. If a person chooses to vote, they should apply, show proof of citizenship and address in order to register. There are too many opportunities for fraud in Oregon. We should be closing the gaps, not opening more. Anyone who really cares about their vote counting, will take the appropriate actions to prove that they are a legal citizen.

Sincerely,
Karen Schmidlin
