

Submitter: Jacqueline Meray

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2996

I feel strongly that If this passes, quality of care will diminish greatly. I pride myself as a dental professional in Taking care of my patients to the best of my ability. Relying on the education and training I worked hard to obtain. Patients can rest assured they are placing their trust with a skilled technician. As a patient myself I would expect my dentists office to provide me with the same. It's important to make sure dental assistants are qualified to take radiographs, passing an exam ensured this.
